

**This form may be used to elect, change or cancel the Directed Monthly Deduction Program (DMDP). Refer to your prospectus for additional information about the divisions of the Separate Account and Information regarding the DMDP. Carefully review the Disclosures in section A before completing this form.**

**A Disclosures** ::

The Directed Monthly Deduction Program (DMDP) is a way to have your policy's monthly charges deducted from the account value from one investment option, rather than from all options on a pro rata basis. Deductions are due on policy Monthly Charge Dates, which are on the same day of the month.

Insufficient account value within your designated investment option will result in monthly charges being deducted pro rata from all investment options with account value.

You may select only one investment option. The investment option may be a division of the Separate Account or the Guaranteed Principal Account (GPA).

Provided there is sufficient account value in your designated investment option, the monthly charges will be deducted from your designated investment option on the Monthly Charge Date.
