STATEMENT AS OF MARCH 31, 2012 OF THE C.M. Life Insurance Company  
**NOTES TO FINANCIAL STATEMENTS**

---

**Note 1 – Summary of Significant Accounting Policies**

- a. C.M. Life Insurance Company (the Company) recognizes statutory accounting practices prescribed or permitted by the State of Connecticut Insurance Department (the Department) for determining and reporting the financial condition and results of operations of an insurance company. The National Association of Insurance Commissioners Accounting Practices and Procedures Manual (NAIC SAP) has been adopted as a component of prescribed or permitted practices by the Department. The Company has adopted certain procedures that differ from NAIC SAP; however, such deviations are not believed to have a material impact on income, statutory surplus or risk-based capital.
- b. Use of estimates in the preparation of the financial statements – No significant changes
- c. Accounting policy – No significant changes

**Note 2 – Accounting Changes and Corrections of Errors**

- a. Correction of errors:  
Under statutory accounting principles, corrections of prior year errors are recorded in current year surplus on a pretax basis with any associated tax impact reported through earnings. There were no corrections of prior year errors for the three months ended March 31, 2012.

The following summarizes corrections of prior year errors for the three months ended March 31, 2011:

	Increase (Decrease) to:			Correction of Asset or Liability Balances
	Prior Year Income	Current Year Surplus		
	(In Millions)			
Policyholders' reserves	\$ (2)	\$ (2)	\$ 2	
Partnership income		(1)	(1)	1
Other		(1)	(1)	1
Total	\$ (4)	\$ (4)	\$ 4	

Certain 2011 balances within these financial statements have been reclassified to conform to the current year presentation.

- b. Adoption of new accounting standards:

In March 2011, the National Association of Insurance Commissioners (NAIC) issued revisions to Statement of Statutory Accounting Principles (SSAP) No. 100, "Fair Value Measurements," which requires additional fair value disclosures. These additional disclosures include a disclosure of the fair value hierarchy of items that are disclosed with a fair value measurement but are not valued at fair value in the balance sheet. Also, companies are required to disclose purchases, sales, issuances and settlements on a gross basis for fair value measurement categorized in Level 3 of the fair value hierarchy. These new requirements were effective January 1, 2012. The adoption of the other requirements of this guidance did not have a significant impact on the Company's financial statements.

In November 2011, the NAIC issued SSAP No. 101, "Income Taxes, A Replacement of SSAP No. 10R and SSAP No. 10." This statement establishes statutory accounting principles for current and deferred federal and foreign income taxes and current state income taxes. This statement supersedes SSAP No. 10, "Income Taxes" and SSAP No. 10R, "Income Taxes, A Temporary Replacement of SSAP No. 10," which expired on December 31, 2011. SSAP No. 101, which was effective on January 1, 2012, has: 1) restricted the ability to use the 3 years/15 percent of surplus admission rule to those reporting entities that meet the modified Risk Based Capital (RBC) ratio (Ex-Deferred Tax Asset (DTA) RBC ratio) threshold, 2) changed the recognition threshold for recording tax contingency reserves from a probable liability standard to a more-likely-than-not liability standard, 3) required the disclosure of tax planning strategies that relate to reinsurance and, 4) required consideration of reversal patterns of DTAs and Deferred Tax Liabilities (DTLs) in determining the extent to which DTLs could offset DTAs on the balance sheet. There was no cumulative effect of adopting this standard.

**Note 3 – Business Combinations and Goodwill** – No significant changes

**Note 4 – Discontinued Operations**

The Company did not have any discontinued operations.

**Note 5 – Investments**

- a. Mortgage loans (including mezzanine real estate loans) – No significant changes

The following table contains loan-backed and structured securities that recognized OTTI, through the three months ended March 31, 2012 and 2011 classified on the following bases for recognizing OTTI:

Securities in an unrealized loss position for less than 12 months had a fair value of \$154 million and unrealized losses of \$5 million. Securities in an unrealized loss position greater than 12 months had a fair value of \$192 million and unrealized losses of \$31 million. These securities were primarily categorized as industrial and miscellaneous and parent, subsidiaries and affiliates.

Refer to Note 36 "Impairment Listing for Loan-Backed and Structured Securities" for CUSIP level detail of impaired structured securities (present value of cash flows is less than cost or amortized cost), including securities with recognized OTTI for noninterest related declines for which an interest related impairment has not yet been recognized.

**Note 9 – Income Taxes**

As discussed in Note 2b "Adoption of new accounting standards", the Company implemented a new standard in 2012 pertaining to accounting requirements for income taxes, SSAP No. 101. Based on the RBC Reporting Entity Table, the Company continues to admit DTAs using the 3 years/15 percent of surplus admission rule. The Company has concluded that there was no cumulative effect of adopting this standard.

- d. Claims related to extra contractual obligations - No significant changes
- e. All other contingencies:

The Company is involved from time to time in litigation arising in and out of the normal course of business, which seeks both compensatory and punitive damages. Although the Company is not aware of any actions or allegations that reasonably should give rise to a material adverse impact to the Company's financial position or liquidity, the outcome of litigation cannot be foreseen with certainty. It is the opinion of management that the ultimate resolution of these matters will not materially impact the Company's financial position or liquidity. However, the outcome of a particular proceeding may be material to the Company's operating results for a particular period depending upon, among other factors, the size of the loss or liability and the level of the Company's income for the period.

- f. Regulatory matters:

The Company is subject to governmental and administrative proceedings and regulatory inquiries, examinations and investigations in the ordinary course of its business. In connection with regulatory inquiries, examinations and investigations, the Company has been contacted by various regulatory agencies including, among others, the Securities and Exchange Commission, the United States (U.S.) Department of Labor and various state insurance departments and state attorneys general. The Company has cooperated fully with these regulatory agencies with regard to their inquiries, examinations and investigations and has responded to information requests and comments.

Market volatility in the financial services industry over the last several years has contributed to increased scrutiny of the entire financial services industry. Therefore, the Company believes that it is reasonable to expect that proceedings, regulatory inquiries, examinations and investigations into the insurance and financial services industries will continue for the foreseeable future. Additionally, new industry-wide legislation, rules and regulations could significantly affect the insurance and financial services industries as a whole. It is the opinion of management that the ultimate resolution of these regulatory inquiries, examinations, investigations, legislative and regulatory changes of which we are aware will not materially impact the Company's financial position or liquidity. However, the outcome of a particular matter may be material to the Company's operating results for a particular period depending upon, among other factors, the financial impact of the matter and the level of the Company's income for the period.

- (4) The Company has no underwriting exposure to subprime mortgage risk through Mortgage Guaranty or Financial Guaranty insurance coverage
- h. Retained asset accounts - No significant changes
- i. Risks related to credit markets:

Credit risk is the risk that issuers of investments owned by the Company may default or that other parties may not be able to pay amounts due to the Company. The Company attempts to manage its investments to limit credit risk by diversifying its portfolio among various security types and industry sectors as well as purchasing credit default swaps to transfer some of the risk.

Since late 2006, declining U.S. housing prices led to higher delinquency and loss rates, reduced credit availability, and reduced liquidity in the residential loan and securities markets. The decline in housing prices was precipitated by several years of rising residential mortgage rates, relaxed underwriting standards by residential mortgage loan originators and substantial growth in affordable mortgage products including pay option adjustable rate mortgages and interest only loans.

The downturn in housing prices caused a decline in the credit performance of RMBS with unprecedented borrower defaults. Market pricing was affected both by the deterioration in fundamentals as well as by the reduced liquidity and higher risk premium demanded by investors. While housing fundamentals began stabilizing in late 2009 and in 2010, the housing market showed signs of renewed pressure through most of 2011. As of now, housing prices are near their April 2009 lows. Liquidation rates and foreclosure resolutions remain low but management is starting to see 'cash buyers' come in to buy homes as they sense the bottom is at hand. Liquidity for securities was weak for most of 2011, as supply concerns and weak fundamentals weighed on the market. Some of this concern abated in first quarter of 2012 but market liquidity is still vulnerable.

The first quarter of 2012 saw a more positive tone in European markets following significant liquidity injections by the European Central Bank, and the average secondary price of leveraged loans in Europe rose by around 3% over the quarter. Underlying concerns over the macroeconomic outlook and debt burden of certain parts of the Eurozone still remain, but the Company's direct exposure on loans to companies in these countries is limited. While progress has been made, the extent of refinancing required in the European loan market over the next three years remains relatively significant and uncertainty over the sources of this refinancing may lead to an increase in default rates going forward.

As of March 31, 2012, the Company's general account held securities issued by entities domiciled within Greece, Italy, Ireland, Portugal and Spain which collectively accounted for less than 2% of invested assets. These holdings are highly diversified and over 89% is comprised of investment grade-rated (NAIC) debt securities issued predominantly by domestic utilities and corporations with large global operations. Within these countries, the Company did not hold any sovereign debt or domestic bank-issued securities.
