Note 1 - Summary of Significant Accounting Policies

- a. MML Bay State Life Insurance Company (the Company) recognizes statutory accounting practices prescribed or permitted by the State of Connecticut Insurance Department (the Department) for determining and reporting the financial condition and results of operations of an insurance company. The National Association of Insurance Commissioners Accounting Practices and Procedures Manual (NAIC SAP) has been adopted as a component of prescribed or permitted practices by the Department. The Company has adopted certain procedures that differ from NAIC SAP; however, such deviations are not believed to have a material impact on income, statutory surplus or risk-based capital.
- b. Use of estimates in the preparation of the financial statements No significant changes
- c. Accounting policy No significant changes

Note 2 – Accounting Changes and Corrections of Errors

Correction of errors:

Under statutory accounting principles, corrections of prior year errors are recorded in current year surplus on a pretax basis with any associated tax impact reported through earnings. For the six months ended June 30, 2012, the Company recorded a net increase to surplus of \$1 million related to investment income. For the six months ended June 30, 2011, the Company recorded a net decrease to surplus of \$1 million related to policyholders' reserves.

Certain prior year amounts within these financial statements have been reclassified to conform to the current year presentation.

b. Adoption of new accounting standards:

In March 2011, the National Association of Insurance Commissioners (NAIC) issued revisions to Statement of Statutory Accounting Principles (SSAP) No. 100, "Fair Value Measurements," which requires additional fair value disclosures. These additional disclosures include a disclosure of the fair value hierarchy of items that are disclosed with a fair value measurement but are not valued at fair value in the balance sheet. Also, for financial instruments carried at fair value, companies are required to disclose purchases, sales, issuances and settlements on a gross basis for fair value measurement categorized in Level 3 of the fair value hierarchy. These new requirements were effective January 1, 2012.

In November 2011, the NAIC issued SSAP No. 101, "Income Taxes, A Replacement of SSAP No. 10R and SSAP No. 10." This statement establishes statutory accounting principles for current and deferred federal and foreign income taxes and current state income taxes. This statement supersedes SSAP No. 10, "Income Taxes" and SSAP No. 10R, "Income Taxes, A Temporary Replacement of SSAP No. 10," which expired on December 31, 2011. SSAP No. 101, which was effective on January 1, 2012, has: 1) restricted the ability to use the 3 years/15 percent of surplus admission rule to those reporting entities that meet the modified Risk Based Capital (RBC) ratio (Ex-Deferred Tax Asset (DTA) RBC ratio) threshold, 2) changed the recognition threshold for recording tax contingency reserves from a probable liability standard to a more-likely-than-not liability standard, 3) required the disclosure of tax planning strategies that relate to reinsurance and, 4) required consideration of reversal patterns of DTAs and Deferred Tax Liabilities (DTLs) in determining the extent to which DTLs could offset DTAs on the balance sheet. There was no cumulative effect of adopting this standard.

Note 4 - Discontinued Operations

The Company did not have any discontinued operations.

Note 5 - Investments

- a. Mortgage loans No significant changes
- b. Debt restructuring No significant changes
- c. Reverse mortgages No significant changes
- d. Loan-backed and structured securities:
 - (1) No significant changes
 - (2) Loan-backed and structured securities recognized other-than-temporary impairments (OTTI) totaling less than \$1 million for the six months ended June 30, 2012 and 2011.
 - (3) Refer to Note 36 "Impairment Listing for Loan-Backed and Structured Securities" for CUSIP level detail of impaired structured securities (present value of cash flows is less than cost or amortized cost), including securities with a recognized OTTI for noninterest related declines for which an interest related impairment has not yet been recognized.
 - (4) As of June 30, 2012, investments in structured and loan-backed securities that had unrealized losses, which were not recognized in earnings, had a fair value of \$24 million. Securities in an unrealized loss position for less than 12 months had a fair value of \$7 million and unrealized losses of less than \$1 million. Securities in an unrealized loss position greater than 12 months had a fair value of \$17 million and unrealized losses of \$1 million. These securities were categorized as industrial and miscellaneous.

Note 9 - Income Taxes

As discussed in Note 2b "Adoption of new accounting standards," the Company implemented a new standard in 2012 pertaining to accounting requirements for income taxes, SSAP No. 101. Based on the RBC Reporting Entity Table, the Company continues to admit DTAs using the 3 years/15 percent of surplus admission rule. The Company has concluded that there is no cumulative effect of adopting this standard.

The Company is involved from time to time in litigation arising in and out of the normal course of business, which seeks both compensatory and punitive damages. Although the Company is not aware of any actions or allegations that reasonably should give rise to a material adverse impact to the Company's financial position or liquidity, the outcome of litigation cannot be foreseen with certainty. It is the opinion of management that the ultimate resolution of these matters will not materially impact the Company's financial position or liquidity. However, the outcome of a particular proceeding may be material to the Company's operating results for a particular period depending upon, among other factors, the size of the loss or liability and the level of the Company's income for the period.

f.

The Company is subject to governmental and administrative proceedings and regulatory inquiries, examinations and investigations in the ordinary course of its business. In connection with regulatory inquiries, examinations and investigations, the Company has been contacted by various regulatory agencies including, among others, the Securities and Exchange Commission, the United States (U.S.) Department of Labor and various state insurance departments and state attorneys general. The Company has cooperated fully with these regulatory agencies with regard to their inquiries, examinations and investigations and has responded to information requests and comments.

Market volatility in the financial services industry over the last several years has contributed to increased scrutiny of the entire financial services industry. Therefore, the Company believes that it is reasonable to expect that proceedings, regulatory inquiries, examinations and investigations into the insurance and financial services industries will continue for the foreseeable future. Additionally, new industry-wide legislation, rules and regulations could significantly affect the insurance and financial services industries as a whole. It is the opinion of management that the ultimate resolution of these regulatory inquiries, examinations, investigations, legislative and regulatory changes of which we are aware will not materially impact the Company's financial position or liquidity. However, the outcome of a particular matter may be material to the Company's operating results for a particular period depending upon, among other factors, the financial impact of the matter and the level of the Company's income for the period.

- i. Risks related to credit markets:

Credit risk is the risk that issuers of investments owned by the Company may default or that other parties may not be able to pay amounts due to the Company. The Company attempts to manage its investments to limit credit risk by diversifying its portfolio among various security types and industry sectors as well as purchasing credit default swaps to transfer some of the risk.

Since late 2006, declining U.S. housing prices led to higher delinquency and loss rates, reduced credit availability, and reduced liquidity in the residential loan and securities markets. The decline in housing prices was precipitated by several years of rising residential mortgage rates, relaxed underwriting standards by residential mortgage loan originators and substantial growth in affordable mortgage products including pay option adjustable rate mortgages and interest only loans.

The downturn in housing prices caused a decline in the credit performance of RMBS with unprecedented borrower defaults. Market pricing was affected both by the deterioration in fundamentals as well as by the reduced liquidity and higher risk premium demanded by investors. Housing prices moved sideways for several years but recently have shown signs of forming a solid bottom. Liquidation rates and foreclosure resolutions remain low but management is starting to see 'cash buyers' come in to buy homes as they sense the bottom is at hand. Liquidity for securities was weak for most of 2011 but 2012 has seen increased liquidity and trading activity as market participants focus on relative value and the scarcity of paper due to a lack of new issuance. Liquidity has improved most for higher quality bonds with predictable cash flows while there is still a dearth of liquidity for the most distressed securities.

The second quarter of 2012 saw a continuation of the Eurozone crisis, with two Greek elections, the bailouts of Spanish banks and finally a European Union summit meeting which agreed to a roadmap for broader Eurozone banking and fiscal coordination. Even against this backdrop, the average secondary price of leveraged loans in Europe was marginally up from the previous quarter. Underlying concerns over the macroeconomic outlook and debt burden of certain parts of the Eurozone remain significant, but the Company's direct exposure on loans to companies in these countries is limited. While progress has been made, the extent of refinancing required in the European loan market over the next three years remains relatively significant and uncertainty over the sources of this refinancing may lead to an increase in default rates going forward.

As of June 30, 2012, the Company's general account held securities issued by entities domiciled within Ireland and Spain which collectively accounted for slightly more than 1% of invested assets. These holdings are highly diversified and are entirely comprised of investment grade-rated (NAIC) debt securities issued predominantly by domestic utilities and corporations with large global operations. Within these countries, the Company did not have any sovereign debt exposure and it did not hold any domestic bank-issued securities.

Note 22 - Events Subsequent

The Company has evaluated subsequent events through August 8, 2012, the date the financial statements were available to be issued, and no events have occurred subsequent to the balance sheet date and before the date of evaluation that would require disclosure.

Note 23 – Reinsurance

- Ceded Reinsurance Report: a.
 - Section 1 General Interrogatories No significant changes
 - Section 2 Ceded Reinsurance Report Part A: No significant changes

Section 3 - Ceded Reinsurance Report - Part B:

If all reinsurance agreements were terminated by either party as of June 30, 2012, the resulting reduction in surplus due to loss of reinsurance reserve credits net of unearned premium would be approximately \$13 million, assuming no return of the assets backing these reserves from the reinsurer to the Company. The corresponding resulting reduction in surplus as of December 31, 2011 was \$19 million.

In 2012, the Company recaptured YRT life reinsurance treaties from several different reinsurers. The recaptures reduced premiums paid to reinsurers by \$3 million and reinsurance reserves ceded by \$8 million.

Reinsurance amounts included in premium income in the Summary of Operations were as follows:
